- Do not use candles or open flames as a light source
- Work with your neighbors
 Check on elderly or those with special needs.
- As the storm hits, gather your family in a safe room (An interior room with no windows)
- Following the storm, watch out for downed power lines
- Listen to your local officials!

FOR EVACUATING **DURING A HURRICANE**

FAMILY PREPAREDNESS TIPS

-) Stay alert to storm advisories WATCH and WARNING-know the difference.
-) Enact your family disaster plan

Map out your route Use travel routes specified by local authorities. DO NOT get on the road without a place to go.

Fill your car with gasoline

DO NOT get stranded, EVACUATE EARLY

Enact your pet plan Before a storm threatens, contact your veterinarian or local humane society for information on preparing your pets for an emergency.

Bring your disaster supply kit Including important documents.

Secure vour home before leaving Board up windows and glass doors, anchor loose yard objects or bring them inside and lock your doors.

Get cash

Following a hurricane banks and ATMs may be temporarily closed.

Notify family and friends of your plans

When evacuating:

If possible, evacuate to the home of either friends or family in a non-vulnerable area within your county. Next try a motel or hotel and as a last resort go to a shelter. Remember, shelters are not designed for comfort and do not usually accept pets.

People who require special assistance in evacuating should register with their local emergency management office.

- medications
- muzzle and leash

Watch and Warning...Know the Difference

When a HURRICANE WATCH is issued for your part of the coast, it means that hurricane conditions are possible within the watch area. The hurricane watch is issued 48 hours in advance of the anticipated onset of tropical-storm-force winds. This watch should trigger your family's disaster plan, and proactive measures should be initiated especially those actions that require extra time such as securing a boat, leaving a barrier island, etc.

When a HURRICANE WARNING is issued for your part of the coast, it means that hurricane conditions are expected within the warning area. The hurricane warning is issued 36 hours in advance of the anticipated onset of tropical-storm-force winds. Once this warning has been issued, your family should be in the process of completing proactive actions and deciding the safest location to be during the storm.
